This course specification provides a summary of the main features of the course, identifies the aims and learning outcomes of the course, the teaching, learning and assessment methods used by teaching staff, and the reference points used to inform the curriculum.

This information is therefore useful to potential students to help them choose the right course of study, to current students on the course and to staff teaching and administering the course.

Further detailed information on the individual modules within the course may be found in the relevant module descriptors and the Course Handbook provided to students on enrolment.

Please refer to the [Course and Module Catalogue](#) for further information on the course structure and modules.

## Educational aims of the course

The PgCert Occupational Health and Safety Management programme aims:

- To provide opportunities for industry and commerce-based professionals, with some experience in Health and/or Safety Management, to extend their scholarship, exercise judgement and acquire skills; thereby to develop and demonstrate their further potential to assume policy-making, managerial or consultancy roles.
- To provide corresponding career development opportunities for graduates in related fields who seek expertise and competence in Occupational Health and Safety Management.
- To make an important contribution to satisfying urgent needs for improved Occupational Health and Safety Management in industry. To meet the increasing demand for professionals equipped to specialise in these challenging areas of management.
