This course specification provides a summary of the main features of the course, identifies the aims and learning outcomes of the course, the teaching, learning and assessment methods used by teaching staff, and the reference points used to inform the curriculum.

This information is therefore useful to potential students to help them choose the right course of study, to current students on the course and to staff teaching and administering the course.

Further detailed information on the individual modules within the course may be found in the relevant module descriptors and the Course Handbook provided to students on enrolment.

Please refer to the [Course and Module Catalogue](#) for further information on the course structure and modules.

Educational aims of the course

- To provide an understanding of the basic concepts, modes of analysis and theoretical approaches which contribute to the study of the English language.
- To enable students to understand and apply a range of concepts from the discipline of linguistics to study a range of texts.
- To provide an opportunity to study diverse modes of communication (oral, written and multimodal) and their distinctive levels of phonology, morphology, lexis, syntax, semantics, pragmatics and discourse.
- To provide knowledge of the structure, levels and discourse functions of the English language.
- To develop understanding of the role of language in society, its nature as a cognitive domain, how it is acquired, how it changes, and its role in a range of media for communication.
- To introduce students to a range of empirical linguistic phenomena and the relevant descriptive terminology, thereby enabling a practical understanding of what the English language is and how it works.
- To compare the English language with other languages, as appropriate.
- To enable students to develop a high standard of literacy, communication skills, and skills of critical argument.
- In the case of students taking the TESOL units, to provide the opportunity to gain an externally accredited entry-level qualification in the Teaching of English as a Foreign Language (modules recognised by Trinity College London).
- To prepare students for further research in language or linguistics-related areas.
- To provide a challenging and stimulating study environment.
- To equip graduates with the necessary transferable skills for lifelong learning, employability and flexibility in the context of globally changing labour markets.
- To provide students with the skills, knowledge and global mind-set required to maximise career and postgraduate study opportunities.
- To provide a framework for students to follow a flexible, coherent programme of study, allowing them to develop specialist interests and knowledge in their main subject and in a minor subject via a Pathway. This course offers a subject Pathway in English Literature. A student who satisfies the Pathway requirements will qualify for the following named award:

BA (Hons) English Language and Linguistics with English Literature

Pathways provide flexibility in the course by offering an academically coherent combination of modules in another subject area for a student to undertake alongside their main degree subject. All students apply for the Single Honours degree and follow a common curriculum of core modules at level 4. All participating Single Honours degrees include 20 credit bridging modules for each Pathway. These modules cover essential material on the Single Honours, and also introduce students to the subject Pathways offered at Levels 5 and 6 through their interdisciplinary flavour. The literature options are only available for students who have opted for the *BA English Language and Linguistics with English Literature* Pathway.

A student chooses whether to continue on the Single Honours programme or join a Pathway when making their options choices for Level 5. In order to satisfy the requirements for the recommendation of the Pathway award a student must have been awarded 40 credits at level 5 and 40 credits in level 6 in subject Pathway modules. A student who joins a Pathway at Level 5 but decides that they do not wish to remain on it, can return to the Single Honours Programme at Level 6, with the exception of those programmes subject to professional accreditation requirements.
